ALABAMA STATE BOARD OF PHARMACY

BUSINESS MEETING

Wednesday, June 17, 2015

9:13 a.m.

LOCATION: Alabama State Board of Pharmacy
111 Village Street
Hoover, Alabama 35242

REPORTER: Sheri G. Connelly, RPR

1 ATTENDEES

2

3 BOARD MEMBERS:

4 Dan McConaghy, President

5 Tim Martin, Vice President

6 Buddy Bunch, Treasurer

7 David Darby, Member

8 Donna Yeatman, Member

9

10 ALSO PRESENT:

11 Jim Ward, Attorney

12 Susan Alverson, Ph.D., Executive Secretary

13 Eddie Braden, Chief Inspector

14 Cristal Anderson, Director of Compliance

15 Dr. Mike Garver, Director, Wellness Program

16 Terry Lawrence

17 Mark Delk

18 Glenn Wells

19 Richard Lambruschi

20 Scott Daniel

21 Logan Gray

22 Wade Hinkle

23 Rick Stephens

1 MR. MCCONAGHY: Now we will open the
2 June 17, 2015, Board meeting of the Alabama
3 State Board of Pharmacy and seeing that we have
4 a quorum of all members present, we'll start the
5 proceedings and we're going to start with
6 introductions again, I'm afraid, because she has
7 to have that on the record.

8 Logan, tell them who you are again.

9 MR. GRAY: Logan Gray, Southern
10 Strategy Group, Montgomery.

11 MR. HINKLE: Wade Hinkle, Inventory IQ
12 out of Bessemer, Alabama.

13 DR. GARVER: Mike Garver, the Board's
14 Wellness Committee.

15 MR. STEPHENS: Rick Stephens, Senior
16 Care Pharmacy.

17 MR. THAYER: Scott Thayer, Senior Care
18 Pharmacy.

19 MR. MOUNT: Gary Mount, director of
20 pharmacy, South.

21 MS. LEOS: Cara Leos with ALSHP.

22 MR. EASTER: Jim Easter, Baptist
23 Health System.

1 MS. BISHOP: Nancy Bishop, Alabama
2 Department of Health.

3 MR. LAWRENCE: Terry Lawrence, Alabama
4 Board of Pharmacy.

5 MR. YARBROUGH: Dane Yarbrough,
6 Turenne PharMedCo.

7 MR. MUSCATO: Matthew Muscato,
8 Walgreens Pharmacy.

9 MS. NEWMAN: Kelli Newman, Alabama
10 Medicaid.

11 MS. HURST: Clemice Hurst, Medicaid.

12 MS. BRANTLEY: Morgan Brantley, Auburn
13 student.

14 MR. BURGESS: Chris Burgess, Heritage
15 Pharmacy.

16 MR. MCENIRY: Jay McEniry with
17 Patients and Physicians Rx Access.

18 MR. BATES: Roger Bates, Alabama
19 Pharmacy Association.

20 MS. JONES: Louise Jones, Alabama
21 Pharmacy Association.

22 MS. HUNTER: Julie Hunter, Omnicare.

23 MR. MAGUIRE: Bill Maguire, Omnicell.

1 MR. WELLS: Glenn Wells, Alabama Board
2 of Pharmacy.

3 MR. DELK: Mark Delk, Alabama Board of
4 Pharmacy.

5 MR. LAMBRUSCHI: Richard Lambruschi,
6 Alabama Board of Pharmacy.

7 MR. DANIEL: Scott Daniel, Alabama
8 State Board of Pharmacy.

9 MR. MCCONAGHY: Okay. We're going to
10 go a little bit out of order on the agenda and
11 start with -- Logan Gray has some comments that
12 we need to hear because he has to leave. Go
13 ahead, Logan.

14 MR. GRAY: Thank you, Mr. President.
15 Regarding this North Carolina State Board of
16 Dental Examiners versus the FTC, of course
17 that's creating a lot of problems across the
18 nation and they're -- I'm recommending that we
19 join the Alabama Association of Regulatory
20 Boards. That association is meeting this
21 afternoon to address this issue and our request
22 is that the Board join this organization and
23 that we be a part of the group that tries to

1 resolve the problems as it applies to Alabama
2 and that concludes my presentation,
3 Mr. President.

4 MR. MCCONAGHY: All right.

5 MR. DARBY: What's going to be the
6 makeup, how many -- how many boards are going to
7 be involved with this?

8 MR. GRAY: There's about 15 or 20. I
9 sent you an email that's got the listing on
10 there.

11 MR. DARBY: Yeah.

12 MR. GRAY: But the medical board is on
13 there, the homebuilders board. There's trade
14 boards but anyone that's regulating a profession
15 where boards are dominated by active
16 participants in that profession -- there's a lot
17 of boards that are involved. We've got an
18 opportunity to be a part of the solution and not
19 just take what we get.

20 DR. MARTIN: I guess a motion is in
21 order, Mr. President?

22 MR. MCCONAGHY: I think we'll wait
23 until new business and address it at that point.

1 MR. GRAY: Thank you.

2 MR. MCCONAGHY: Thank you. You're
3 dismissed.

4 MR. WARD: Can I just say one thing?

5 MR. MCCONAGHY: Yes.

6 MR. WARD: You know, under the new
7 Drug Supply Chain Security Act, if the Board
8 does not create a new licensure category for
9 third-party logistics preempted by federal law,
10 our law does not have anything like that. It
11 used to be you could say they are a whole -- a
12 wholesaler but the federal law says you can no
13 longer do it.

14 So we need to amend the Practice Act
15 to create a new category. We can do it to
16 34-23, I think it's 32 that says wholesaler,
17 bottler, packer, we can just add third-party
18 logistics. I'm wondering if there's any way
19 that the special session would do it. If not,
20 we need to -- that's a priority because if not,
21 the feds are going to tell us how we have to do
22 it and we don't want that to happen, so I don't
23 know if it's possible for you in a special

1 session. I know it's going to be part of the
2 Governor's call or whatever it is. But if not,
3 we need to go ahead and get it drafted and get
4 everything warmed up.

5 MR. GRAY: We'll take a shot at it if
6 it's -- I think we can make a case because of
7 the time sensitive issue here, we'll make that
8 case and if we prevail, then we'll have it as a
9 part of the Governor's call. If we don't
10 prevail, we'll have to just take it on in the
11 regular session.

12 MR. DARBY: Susan, would there be any
13 point in also while you're doing that one add an
14 outsourcer of 503B?

15 DR. ALVERSON: Sure, if that's the --
16 what you want to do.

17 MR. DARBY: Yeah, we can go ahead and
18 do that all at one time.

19 MR. WARD: And nothing's really going
20 to change in terms of what we're doing. We just
21 can't do it under the names that we're doing
22 now.

23 MR. DARBY: Yeah.

1 DR. MARTIN: Can we just, say, give us
2 authority to have whatever permits we need?

3 MR. WARD: I think you should say a
4 third party 3PLs.

5 DR. MARTIN: For this one.

6 MR. WARD: For this one and then if --
7 we may already have the authority on
8 manufacturing but it might not hurt to put in
9 some 503B language.

10 DR. MARTIN: So it would be very
11 descriptive on this one and then come back later
12 on?

13 MR. WARD: Well, I think manufacturer
14 might be enough, so we'd have to look at that
15 but certainly we'd have to put 3PL because we
16 don't have that in our law and every state was
17 doing it. Like we were doing it and now we
18 can't do that anymore.

19 DR. MARTIN: Good point.

20 MR. MCCONAGHY: That's another item
21 added on for you, Logan.

22 MR. GRAY: Okay.

23 DR. MARTIN: In your spare time.

1 MR. MCCONAGHY: Have you got any other
2 discussion for Logan?

3 DR. ALVERSON: I'll do it during new
4 business.

5 MR. MCCONAGHY: Okay.

6 MR. GRAY: Thank you.

7 MR. MCCONAGHY: Thank you, Logan.

8 DR. MARTIN: Thank you.

9 MR. WARD: See you, Logan.

10 MR. MCCONAGHY: We're also going to go
11 ahead and take Dr. Mike Garver with the Board of
12 Pharmacy Wellness Committee and let him do his
13 report.

14 DR. GARVER: Thank you, sir. Good
15 morning.

16 DR. MARTIN: Good morning.

17 DR. GARVER: Good to be here today.
18 This is the present May/June report for the
19 Wellness Committee. There are presently 143
20 people in our screening program with signed
21 contracts and orders. There are two pharmacists
22 in inpatient treatment. There's one pharmacist
23 who is in the middle of an evaluation which has

1 been interrupted due to surgery. There's one
2 pharmacy technician in treatment. There is one
3 student that we are working with to determine if
4 an evaluation is needed. There's one student in
5 inpatient treatment and there's one pharmacist
6 deciding whether or not to continue with their
7 career. Their license is presently not active,
8 so it's not a problem.

9 This next bit is something that we've
10 been trying to do that Ms. Alverson has asked
11 for to statistically cover the number of
12 pharmacy professionals that we identify each
13 year. When this was written day before
14 yesterday, we had identified 15 pharmacy health
15 professionals this year in 2015 who needed the
16 services of our committee. That number is 17 as
17 of this morning. We've added two to that.

18 We have -- still have a huge backlog
19 from last year that are working their way
20 through halfway house, who have been held out of
21 recovery, or who have been in the process of
22 investigation or scheduled for hearings. There
23 are 84 individuals in facility-driven aftercare.

1 This morning I met with the Board's inspectors.
2 We had a great meeting concerning the problems
3 that we run into with communication for people
4 who have to have evaluation and treatment and we
5 got a lot done this morning so that -- that was
6 good for me to meet all of them and talk with
7 them and get some things on paper that we can --
8 we can do to make our communication better.

9 That's it for me this morning. If
10 there are any questions, anybody?

11 MR. MCCONAGHY: Is there anything that
12 we can do as a board to help you out or
13 implement what you got going?

14 DR. GARVER: These guys, you know,
15 your -- you have a great staff and the staff
16 gives me -- has given me what I've needed, so I
17 have absolutely no complaints.

18 Thank you. See you next time.

19 MR. BUNCH: Thank you.

20 DR. MARTIN: Have a safe trip.

21 MR. MCCONAGHY: Next agenda item now
22 that we're back on the agenda is presentations
23 and I'll let you do your introductions there.

1 MR. HINKLE: I've noticed that the
2 format has changed up here. Does anybody
3 need -- I've got six extra presentation slides.
4 Does anybody need any of them? It's easier on
5 your eyes.

6 All right. My name is Wade Hinkle,
7 Hinkle Pharmacy, Inventory I.Q. I'm actually
8 representing two different companies today. My
9 partnership that's creating Rx30 Pharmacy
10 Marketplace. See, it's kind of small.

11 My name is Wade Hinkle. I'm an Auburn
12 University graduate. I'm a Hinkle Pharmacy
13 manager. I'm very young but I've grown up in
14 pharmacy from when I was five years old, I used
15 to take out the trash to becoming a cashier,
16 then to becoming a technician, now becoming a
17 manager and soon to be owner as well.

18 I'm an Inventory I.Q. cofounder.
19 Buddy Bunch is actually one of our clients.
20 What we do is we actually provide an inventory
21 service to independent pharmacies. I'm NCPA,
22 APA, PCCA, and APCI member as well.

23 Now, what we're here to talk about is

1 the Rx30 Pharmacy Marketplace. Essentially what
2 this is, it's like MatchRX. I know a lot of you
3 are very familiar with that but what this is
4 going to be is kind of like an eBay. Pharmacies
5 will be able to have -- be able to list and sell
6 and trade drugs amongst one another through this
7 website and so there's really no difference
8 between this and MatchRX. We just are going to
9 utilize the computer systems to kind of give the
10 pharmacies a shortcut and kind of guide them
11 along in the process and that's really the only
12 big difference.

13 It will only be Rx30 pharmacies only.
14 No controlled substance. I'm not even going to
15 go down that path with the DEA in trading drugs
16 across state lines. It's A complete nightmare,
17 will not touch that. All the Drug Supply Chain
18 Security Act laws, I know those are all new.
19 Those will all be in force and I have read
20 everything I can get my hands on, every
21 guidance, so the FDA -- I've contacted the FDA,
22 the NABP, tried to get everything I possibly
23 can.

1 So I'm here to ask for y'all's help.
2 If I've missed something, please tell me because
3 I hope by me coming here today shows that I want
4 to do this correctly. We are -- this is not
5 operating right now. We want to go -- we're
6 still in development phases of all of this. I
7 want to make sure that we have all of our ducks
8 in a row before we do our first transaction.

9 All federal and state laws are going
10 to be enforced. This is created by Transaction
11 Data Systems and Inventory I.Q.

12 Now, who are they? Transaction Data
13 Systems is the creator of the Rx30 pharmacy
14 system. The CEO is Steve Wubker, who has given
15 me permission to speak on his behalf today.
16 They were established in 1977. They have over
17 4,500 pharmacies in all 50 states and they're
18 the leading independent pharmacy software
19 vendor, very reputable company, very large, very
20 good company.

21 Inventory I.Q., the founder is my
22 brother, Tanner Hinkle. We were established in
23 2011. We're fairly new. We have 30 pharmacies.

1 We install and manage perpetual inventory
2 systems, so essentially we come into your
3 pharmacy and we give you transparency in your
4 store and we teach you how to buy products the
5 correct way and save you money at the same time.
6 So we're not pharmacy consultants. We're
7 management consultants.

8 Now, from everything that I've read,
9 the third-party logistic provider is the best
10 entitlement for what we're looking for. I know
11 this is kind of a gray area and just like
12 Mr. Alexander was saying, I believe that it's
13 kind of missing in the law right now, so that's
14 why I'm kind of -- I read everything that I
15 could from the federal standpoint and I'm trying
16 to ask you guys how do I need to go about doing
17 this. So I followed the FDA guidance as much as
18 I possibly can to provide all the information to
19 meet their standards but if I'm missing anything
20 or leave anything out that you guys want me to
21 provide, I'm more than willing to do it.

22 But right now, the Rx30 Pharmacy
23 Marketplace will never take ownership of any of

1 the drugs as it changes completely what we are
2 if we take ownership. All we're going to do is
3 facilitate the dispensers. We're going to give
4 them the ability to communicate with one
5 another. That's all we're actually doing.

6 It's going to be an informational
7 website for pharmacies to buy and sell
8 prescription drugs and pharmacy-related
9 equipment, shelving, you know, any kind of
10 robotics, that sort of thing as well. All of
11 that will -- you don't have to worry about that
12 from a legal standpoint.

13 We're going to facilitate the matching
14 of only two dispensers and like I said, it's a
15 similar service to MatchRX. The only real
16 difference, like I said, is we're utilizing your
17 pharmacy system versus right now on MatchRX, I
18 have to go through my entire pharmacy, in fact,
19 1,500, 1,600 drugs in my store, I have to go
20 through my entire pharmacy and figure out what I
21 need to list on this website, what I need to buy
22 on this website. So 1,500 items you can imagine
23 takes a really long time to do that.

1 If I have it all in my computer
2 system, it can kind of give me that shortcut and
3 say, hey, you're using this, you might want to
4 check this out on our website and purchase it.
5 So that's kind of the shortcut that we're
6 providing to the users if that all makes sense.

7 The third-party logistics provider,
8 that's kind of what I envision us to try to do
9 here. Our intentions, like I said, I'm being
10 repetitive here, but all the Alabama state laws
11 and federal laws are going to be enforced. The
12 Drug Supply Chain Security Act is going to be
13 enforced. No controlled substances and as well
14 as the refrigerated items will be temperature
15 controlled. They will have to -- they will have
16 to show that if it's a -- they must check off
17 this refrigerator item and it's on the pharmacy.
18 So if they -- if pharmacy A sells it to pharmacy
19 B and they don't send it temperature controlled,
20 we're going to have a dispute resolution team
21 that will return that item.

22 So it's on the pharmacy to -- they're
23 going to be liable, I mean, they know what

1 products have to be temperature controlled and
2 those that do not. If they don't make it
3 temperature controlled, it's going to -- the
4 transaction is coming back. It's as simple as
5 that.

6 The organizations that I've spoken to
7 is the FDA. The federal licensing -- I've read
8 two different things here that they're going
9 to -- they're going to have the federal license
10 by November 27 of 2015. Then I also read
11 they're not going to have it until 2017. Does
12 anybody know that?

13 MR. WARD: They don't even know.

14 MR. HINKLE: They don't even know,
15 okay. That's pretty much what I gathered. So
16 once that comes out, that's obviously my
17 objective. The NABP, they've actually told me
18 that I don't have to do anything so that was
19 good and then you guys.

20 So our objective is to try to either
21 get, you know, a 3PL license or at least what I
22 want to be able to do is beta test this. I
23 don't want to trade across state lines yet. I

1 will get to that point. What I want to be able
2 to do is just make sure that the functionality
3 works first, put 20, 30 pharmacies on it, let
4 them trade back and forth and make sure all the
5 functionality works, work out our bugs, and then
6 we'll go to other states.

7 So the requirements to be able to even
8 be on this website are very strict. You have to
9 be a pharmacy owner or a licensed pharmacist.
10 You have to be over the age of 18. You have to
11 have an NPI, NCPDP, legal business name,
12 address, contact name, number and email, DEA
13 license, state license number, expiration date,
14 federal tax ID number, organization type,
15 wholesaler that they use is very important. You
16 have to be an Rx30 pharmacy software user. You
17 have to have the transaction statements for the
18 DSCSA and a valid bank account, so it's pretty
19 strict. This is all the requirements of MatchRx
20 except for one big kicker, you to have to be an
21 Rx30 pharmacy user as well. So if anything, we
22 are going to be a stricter system than MatchRX
23 because you have to put up \$20,000, \$30,000 just

1 to be on this system where MatchRX is free. So
2 we have a larger barrier entry for our customers
3 without question.

4 Electronic statement verification, at
5 the time of the transaction, the seller has to
6 sign and attest to the following: The product
7 is not altered or counterfeited, that the drug
8 has been maintained in compliance with proper
9 conditions for storage and handling as
10 prescribed on the drug label or manufacturer's
11 package insert, and at all times this has been
12 in their possession.

13 This actually came from Mark Conradi,
14 who is a former State board, pharmacy lawyer,
15 I'm sure a lot of you know him. This is what he
16 said that our electronic statement verification
17 should have on it. I have another version
18 that's a little bit stricter.

19 The Drug Supply Chain Security Act and
20 actually I have read everything that I possibly
21 can find on this right now and I know it's
22 pretty new. The seller has got to provide the
23 purchaser of the product tracing information.

1 So I think this is a great idea. In other
2 words, it's the pedigree and I'm sure y'all are
3 familiar with that word. So basically I have to
4 prove that I bought it in the United States and
5 I now have to provide documentation for that. I
6 like that because I'm a MatchRX user right now
7 and I don't -- I believe the Alabama requirement
8 at one time, you had to provide an invoice to be
9 able to make the transaction go through and I
10 thought that was a good idea and then it went by
11 the wayside and now they're requiring it and I
12 think that's great.

13 So it's a paper or electronic form
14 that complies with the section, all the numbers,
15 and the FD and C Act. It's going to include the
16 transaction information, the transaction
17 history, and the transaction statement. So
18 basically everything that's happened with the
19 transaction. Where does it come, who is it
20 from, what is it, et cetera, and then also we
21 have to do annual FDA reporting and that's going
22 to be for the actual facilities that, you know,
23 MatchRX, Inventory I.Q., Rx30, et cetera, and

1 all of this is actually coming from the federal
2 government, every guidance, everything that I'm
3 talking about is coming from the feds.

4 The transaction history, what is it?
5 A statement in paper or electronic format,
6 including the transaction information for each
7 prior transaction going back to the manufacturer
8 of the product. So basically the receipt, who
9 it come from, when was it made, the lot number,
10 everything about it, and here's everything
11 that's going to be on the transaction
12 information: What is it, you know, who does it
13 come from, like I said, the NDC, the container
14 size, number of containers, lot number of the
15 product, the date of the transaction, the date
16 of shipment if it's more than 24 hours after the
17 transaction, the business name and the ownership
18 that's being transferred and business to whom
19 the ownership is being transferred, so everybody
20 that has everything to do with it.

21 And your transaction statement, this
22 is the stricter version of the electronic
23 statement. The statement in paper or electronic

1 form that the entity transferring ownership of
2 the transaction. You have to be authorized as
3 required by the DSCSA. Basically you have to be
4 an authorizing trading partner. You have to be
5 a licensed pharmacist, all the requirements that
6 I had on there, you have to have all of that
7 just to be an authorized trading partner for us.

8 You see the product from somebody that
9 is authorized under the DSCSA, which you can't
10 be on it unless you're already authorized,
11 receipt of transaction information, and a
12 transaction statement from the prior owner of
13 the products, which is the transaction history,
14 did not knowingly ship a suspect or illegitimate
15 product. They had systems in place to comply
16 with the verification requirements, did not
17 knowingly provide false transaction information,
18 and did not knowingly alter the transaction
19 history, and that's -- they have to sign off on
20 that. On every transaction they have to do,
21 they have to sign their name and verify it.

22 So the annual reporting, this is where
23 our facility will have to report to the feds and

1 basically they want to know everything that has
2 happened with this. They want to know
3 everything about it, see if we have any kind of
4 problems. Everything that's up here right now
5 we have to report within 30 days of getting
6 another license as well, we have to report to
7 them. So that's something that we have to do
8 annually with them. And y'all may know a lot of
9 this. I'm just letting you guys know that we
10 know this so that we're going to comply with the
11 laws.

12 Now, the state license information
13 must be provided and I know this doesn't apply
14 right now. We have to provide each state from
15 which the drug products are distributed with a
16 state license program for which state requires a
17 license to ship product to that state. There
18 are some states that do not allow pharmacy-to-
19 pharmacy trading and we know that, so I'm going
20 to have to go to every state board and figure
21 out if we're going to be able to do that or not.
22 I know Alabama pharmacy does allow pharmacy-to-
23 pharmacy trading, so any pharmacy or any state

1 that allows pharmacy-to-pharmacy trading, we're
2 going to -- we're going to do exactly what I've
3 done here, let everybody know and make sure that
4 it's okay and that, you know, you don't want any
5 other kind of verification process or anything
6 like that because I want to make everybody happy
7 and do this the way that it's supposed to be
8 done.

9 We are going to put transaction limits
10 on this. The buyer may only purchase \$15,000 of
11 prescription drugs within a transaction period,
12 normally about seven business days. The seller
13 is allowed to sell -- is only allowed to sell
14 and transfer a maximum of five percent. If you
15 do five percent, you have to have a wholesaler/
16 distributor license, so they're only going to be
17 limited to the five percent.

18 Okay. Now, suspect product and
19 notification. Since the Rx30 Marketplace will
20 never take ownership of the actual drug itself,
21 it's very limited to how relevant it is but in
22 this case, I do have a plan.

23 So if our customers, for instance,

1 call me and say that I've got a bottle of
2 Abilify here and it doesn't look like Abilify,
3 he put jelly beans in it, for instance, I'm
4 going to kick that guy off the marketplace and
5 I'm going to notify my customer that they need
6 to let the federal government know so that they
7 can do an investigation of them. That's really
8 all I can do because I can't take that product
9 in and investigate it myself and I have to do
10 all kind of different other stuff and right now,
11 all I'm going to do is facilitate the person to
12 do the right thing.

13 And this is where our dispute
14 resolution team comes in. Any damaged items,
15 incorrect items, suspect items, or suspect
16 activity, I don't want any of this going on. If
17 somebody is -- if there's going to be suspects,
18 somebody is sending products that somebody feels
19 like they're expired, they test them and they
20 are expired, I'm kicking them off. We've got
21 4,500 different users, I'm going to have zero
22 tolerance policy. I don't care if they have 40
23 stores, they're gone.

1 The Rx30 Pharmacy Marketplace will
2 have a branch dedicated to dispute resolution
3 and customer service. Any suspected item or
4 activity from an Rx30 Pharmacy Marketplace user
5 will be directed to report the suspect to the
6 FDA within 24 hours of the transaction.

7 No transfer, so there's certain drugs
8 that you have -- you can't transfer unless you
9 have a certain license, Isotretinoin and
10 clozapine related chemicals are forbidden to be
11 transferred. Anything that requires a certain
12 type of licenses, we're not going to allow the
13 NDC to be on it, just like the controlled
14 substances, the NDCs will not be listed.

15 Now, this is -- this is where it gets
16 fun: The grandfathering product. So the
17 tracing wasn't required by the wholesalers until
18 January 1 of 2015, the transaction history. So
19 anything prior to January 1 technically doesn't
20 have a transaction or doesn't have to have a
21 transaction history.

22 Now, authorized trading partners are
23 exempt from everything prior to January 1.

1 Wherever that product is today, if I bought it
2 in December of 2014, wherever that product is
3 today, if I tried to sell it, the transaction
4 history begins with where I am right then and
5 there so -- and also the owners of such product
6 on such date shall be exempt from asserting the
7 receipt of transaction information and
8 transaction statement from the prior owner
9 obviously because you don't have it. You know,
10 if they didn't give it to you the first
11 go-round, then you're not going to have it.

12 So January 1 to now, there is one more
13 problem. The pharmacies were not required or
14 dispensers were not required to store the
15 transaction history. The wholesalers were
16 required to give us the transaction history but
17 technically if they gave it to me in a paper
18 format, I technically did not have to store
19 that. So if I throw it away, it's not going to
20 be there.

21 The feds don't know how to deal with
22 this problem. In my personal opinion, what I
23 believe is going to happen is they're going to

1 grandfather all the products up to July 1
2 because July 1 is when the dispensers are
3 required to store all the electronic forms and
4 so that's personally what I believe will happen.
5 I think it's an easy fix too. So until they
6 give us strict guidelines on how to deal with
7 that, I'm just going to go with what they said
8 right now so.

9 And there's all my references.
10 Everything comes from the FDA and I'm open to
11 questions.

12 MR. WARD: First of all, let me say
13 this to you, the Board does not have a licensure
14 category now for third parties.

15 MR. HINKLE: Okay.

16 MR. WARD: If you read the Act as
17 carefully as you say, you would see that we can
18 no longer issue a permit to you as a wholesaler.

19 MR. HINKLE: Yes, sir.

20 MR. WARD: So you're going to have to
21 follow the federal law until the Board creates a
22 new licensure category.

23 MR. HINKLE: Okay.

1 MR. WARD: Number two is we've been
2 alerted just last week to a problem where
3 MatchRX apparently has not notified or it's not
4 understood that some of the -- some of the
5 pharmacies who are involved with MatchRX need a
6 license in states in which they are selling
7 drugs.

8 MR. HINKLE: Really, okay.

9 MR. WARD: So you need to make sure --
10 we don't want any Alabama pharmacies who are
11 joined in this to unwittingly become the subject
12 of a disciplinary action --

13 MR. HINKLE: Right.

14 MR. WARD: -- somewhere else because
15 they don't have the proper credentials in those
16 states.

17 MR. HINKLE: Right, I completely
18 agree.

19 MR. WARD: So I would caution you to
20 that, okay. Those are the first two things that
21 I think are really important. You talked so
22 fast, I wasn't sure about a lot of it but from
23 my standpoint, those are the two things that I

1 think are important, if they understood all of
2 that.

3 MR. DARBY: Who determines the price?

4 MR. HINKLE: The user -- I'm sorry,
5 the dispenser.

6 MR. DARBY: And Kelli might be able to
7 shed light on this. When they do the Medicaid
8 invoice audits and the CMS invoice audits, will
9 that be reflected -- will those invoices go to
10 CMS since it's already shown up on another
11 invoice?

12 MS. NEWMAN: When CMS requests their
13 invoices, it's a random, voluntary survey and
14 they -- I know that they've picked pharmacies in
15 Alabama because I've spoken with you who have
16 been chosen, so.

17 MR. DARBY: Apparently I'm real high
18 on their random list.

19 MS. NEWMAN: And my understanding is
20 just like Alabama, they want the face invoice.
21 That's not net of any other rebates or
22 anything.

23 MR. DARBY: So if I used your service

1 and I got a product from a -- say a store in
2 Tennessee.

3 MR. HINKLE: Right.

4 MR. DARBY: And I got it -- I'm
5 guessing they had a discount of what he actually
6 paid, that price would then go -- when Medicaid
7 requested an audit, you would get the lower
8 price; correct?

9 MS. NEWMAN: Well, no, sir, at this
10 time, Medicaid requests that the invoice, okay,
11 so are you asking --

12 MR. DARBY: I'll get an invoice from
13 -- my invoice will be from --

14 MS. NEWMAN: You would be requested to
15 supply that invoice -- the invoice.

16 MR. DARBY: Which is going to skew the
17 data. I mean, it might not be a big enough
18 amount to matter but --

19 MS. NEWMAN: Theoretically, yes, sir,
20 you are correct but with -- you know, we require
21 at least five cost observations throughout the
22 state in a six-month period and if it's a drug
23 that's used enough, one invoice is not going to

1 skew it --

2 MR. DARBY: Right.

3 MS. NEWMAN: -- really, I mean, just
4 out of -- out of experience.

5 MR. DARBY: Yeah.

6 MR. MCCONAGHY: Any other questions?

7 MR. HINKLE: So just so I make sure
8 that I understand all of this, for right now, we
9 are allowed to beta test this, is that right, as
10 long as we require -- do the federal laws?

11 MR. DARBY: Does MatchRX have a
12 license from us?

13 MS. ANDERSON: (Nods head.)

14 DR. MARTIN: As a what?

15 DR. ALVERSON: I am not positive.

16 DR. MARTIN: A retail pharmacy?

17 MS. ANDERSON: No, as a --

18 DR. MARTIN: Wholesaler/distributor.

19 MR. DARBY: Well, I would think until
20 the federal guidelines are issued -- the federal
21 guidelines, they haven't been issued yet, have
22 they?

23 MR. HINKLE: No, huh-uh, that's the

1 thing, they keep flip-flopping.

2 MR. DARBY: I mean, I would think they
3 would need a -- my opinion, they would need the
4 same as MatchRX. They would need a
5 wholesaler --

6 DR. MARTIN: Wholesaler/distributor.

7 MR. DARBY: -- permit but the -- if we
8 get a --

9 MR. WARD: Can't.

10 MR. DARBY: They can't.

11 MR. WARD: The way I read this new
12 act, you can't do that anymore unless it's --

13 MR. DARBY: So the --

14 MR. WARD: You'll have to look at
15 it.

16 MR. DARBY: -- the Drug Supply Chain
17 Act has gone into effect?

18 MR. WARD: Well, it's unclear whether
19 it's -- all the guidance documents say that you
20 can no longer license a third-party logistics
21 provider as a wholesaler.

22 DR. MARTIN: Correct.

23 MR. WARD: Except a license.

1 MS. YEATMAN: Which we don't have.

2 MR. WARD: Which we don't have. Some
3 states have already created a new licensure
4 category. Some aren't doing anything, so I
5 guess we can -- so I think we just -- I just
6 need to go back and review that to make sure.
7 I'm not sure that we -- there are certain time
8 frames within that act that things have to start
9 happening but like, you know, they -- they said
10 that the State can continue to license third-
11 party logistic providers as long as their
12 standards are at least as strict as the
13 standards of the FDA but they haven't issued the
14 standards yet.

15 MR. HINKLE: Yeah.

16 MR. WARD: So if you -- you're just
17 kind of in the dark. If you set up a licensing
18 scheme, you might have to change it if it's not
19 what their regulation says, so.

20 DR. MARTIN: Right.

21 MR. HINKLE: And you're right, that's
22 what all the guidances say. They say they're
23 going to for right now follow these rules and we

1 might change them. That's basically what it all
2 says and that's why I came to you guys first is
3 because I wanted to find out if there's
4 something else I need to do that you would be
5 aware of because all I really want to do is make
6 sure that, you know, from a functionality
7 standpoint this works and I'll worry about
8 everything else later. And like I said, I don't
9 plan on going out of state whatsoever. I want
10 to do everything in Alabama first. I've got
11 enough pharmacists here that we can at least
12 test it and then I definitely -- that was my
13 number one priority, I've got to go to every
14 state board and make sure that they're going to
15 allow us to be in there because if you have a
16 certain zip code, you're not going to be allowed
17 to post things up, so I don't want to have to
18 deal with those kind of issues.

19 MR. BUNCH: So Jim, is there anything
20 to prevent them from going ahead and doing what
21 he wants to do now?

22 MR. WARD: Probably not but I'd just
23 like to look at that one more time just to make

1 sure and compare it to the Act just to make
2 sure. I'm more concerned frankly about
3 pharmacies who are involved in this, make sure
4 that whatever they're swapping drugs to or
5 selling drugs to in those states, that they're
6 protected there. That's to me the biggest thing
7 for anybody getting into it, you need to make
8 sure that you don't get accused of doing
9 something in that state that would have required
10 you to have a license there. That's the biggest
11 thing to me right now.

12 MR. HINKLE: Yeah, I agree with you.

13 MR. BUNCH: And you've probably
14 managed that a little better by being with
15 Rx30 --

16 MR. HINKLE: Right.

17 MR. BUNCH: -- I would think.

18 MR. HINKLE: For sure.

19 MR. BUNCH: It's closer-knit.

20 MR. HINKLE: It's much more
21 transparency than MatchRX.

22 MR. BUNCH: MatchRX, right.

23 MR. WARD: When do you -- when do you

1 plan on starting this?

2 MR. HINKLE: That's the thing, we
3 can -- if you guys need two months to do it,
4 three months, that's okay. We're still in the
5 engineering phases. I wish I had a good answer
6 for you on that but I'm not a computer
7 programmer so they get things done when they can
8 but.

9 MR. MCCONAGHY: If we need an
10 approval, I would just suggest that we go ahead
11 and take a vote on approval and with the
12 exception that it will be pending on Mr. Ward's
13 research.

14 MR. WARD: That's fine with me.

15 DR. MARTIN: Is that your motion, Dan?

16 MR. MCCONAGHY: That was my motion.

17 MS. YEATMAN: One thing.

18 MR. HINKLE: Yes, ma'am.

19 MS. YEATMAN: Can we get a hard copy
20 of what you're --

21 MR. HINKLE: Sure. Do you each want
22 one?

23 MS. YEATMAN: I think Mr. Ward wants

1 one.

2 MR. WARD: I don't have it. I hate
3 Dropboxes. I don't have a Dropbox.

4 MR. DARBY: I'll second the motion.

5 DR. MARTIN: I'll second that.

6 MR. MCCONAGHY: All right. We have a
7 motion and a second. All in favor?

8 MS. YEATMAN: Aye.

9 MR. DARBY: Aye.

10 MR. BUNCH: Aye.

11 MR. MCCONAGHY: Aye.

12 All opposed?

13 (No response.)

14 MR. MCCONAGHY: Anybody abstain?

15 (No response.)

16 MR. MCCONAGHY: That is passed. Thank
17 you.

18 MR. HINKLE: Thank you.

19 MR. MCCONAGHY: In the consequence of
20 breaking Robert's Rules of Order, now that we've
21 got all the miscellaneous out of the way, I
22 would like to ask for a motion to adopt the
23 agenda.

1 MR. DARBY: I make a motion we adopt
2 the agenda as written.

3 MS. YEATMAN: Second.

4 MR. MCCONAGHY: All in favor?

5 DR. MARTIN: Aye.

6 MR. DARBY: Aye.

7 MS. YEATMAN: Aye.

8 MR. BUNCH: Aye.

9 MR. MCCONAGHY: Okay. The agenda is
10 adopted and Buddy, you're up next on the agenda
11 now.

12 MR. BUNCH: All right. It gives me
13 great pleasure to present the treasurer's
14 report. We're about two percent above our
15 percent of budgeted income, so it looks like it
16 was about like it was last month. Y'all have it
17 in your Dropbox. If you have any questions,
18 we'll take them, but it's pretty much on line as
19 it should be this time of the year. If David
20 can be two percent above next year, then he'll
21 be elected treasurer.

22 MR. DARBY: Just leave me a lot of
23 money because I'm going to need it.

1 MR. BUNCH: But if there's any
2 questions, we'll take them. Otherwise, it's in
3 your Dropbox and again, it's basically not much
4 changed from last month, no big expenditures, I
5 don't think. Susan will probably touch on a big
6 purchase later on but otherwise, that concludes
7 the treasurer's report.

8 DR. MARTIN: I move we receive the
9 treasurer's report as submitted.

10 MS. YEATMAN: Second.

11 MR. MCCONAGHY: All in favor?

12 MR. DARBY: Aye.

13 MR. BUNCH: Aye.

14 MS. YEATMAN: Aye.

15 MR. MCCONAGHY: Thank you, Buddy.
16 That's a real thorough report there.

17 MR. BUNCH: Well, I try to get
18 everything.

19 MR. WARD: Hey, Dan.

20 MR. MCCONAGHY: I think I know where
21 you learned that report.

22 DR. ALVERSON: Yeah.

23 MR. MCCONAGHY: You must have been at

1 the NABP convention. All right.

2 MR. BUNCH: Like Schultz, I see
3 nothing, I know nothing.

4 MR. MCCONAGHY: All right. On the
5 Board minutes, I'm not exactly sure since I
6 wasn't here at the last meeting. I don't know
7 if they're correct or not but I assume y'all
8 have read them.

9 DR. MARTIN: Of course.

10 MR. MCCONAGHY: And if you don't have
11 any additions or corrections, I'd ask for a
12 motion to accept them.

13 MR. DARBY: I make a motion we accept
14 the Board business minutes from the May 13,
15 2015, meeting.

16 MS. YEATMAN: Second.

17 MR. MCCONAGHY: All in favor?

18 MR. BUNCH: Aye.

19 MS. YEATMAN: Aye.

20 MR. DARBY: Aye.

21 MR. MCCONAGHY: I make a motion that
22 we approve the interview minutes from the May
23 13, 2015, meeting.

1 MS. YEATMAN: Second.

2 MR. MCCONAGHY: All in favor?

3 DR. MARTIN: Aye.

4 MS. YEATMAN: Aye.

5 MR. DARBY: Aye.

6 MR. BUNCH: Aye.

7 MR. MCCONAGHY: Okay. So we got that
8 out of the way. Eddie, you're up next on the
9 agenda.

10 MR. BRADEN: Yes, sir, Mr. President,
11 Members of the Board, I -- in the Dropbox you
12 can see the inspections that were completed
13 last -- last month. We're on line to be
14 catching up on that two-year cycle, so we're
15 getting closer to that -- the amount of
16 complaints that we received and the amount we
17 completed and I continued to break that down and
18 show you what -- what those different categories
19 may be on those complaints. And then some
20 activity that we did also in addition for the
21 month were -- there was some training and some
22 assistance on some areas of concern. Do you
23 have any questions?

1 DR. MARTIN: What's AIW?

2 MR. BRADEN: That's an administrative
3 inspection warrant.

4 DR. MARTIN: Very good.

5 MR. MCCONAGHY: Any questions?

6 (No response.)

7 MR. MCCONAGHY: Susan, the secretary's
8 report.

9 DR. ALVERSON: As you can see, I have
10 yet to put it in the Dropbox yet, so mine is
11 even more minimal than Buddy's but I'll give it
12 to you verbally.

13 The auditor has left. After eight
14 weeks of going through our finances and she made
15 the comment, she's never seen so many minutes
16 for an agency in her life. We are still -- we
17 still have to have an exit interview after
18 everything is written up. What she did tell me
19 was that things looked good. She didn't think
20 there were going to be issues that we are going
21 have to worry about, but she did remind me to
22 remind all of us that any changes that occur in
23 the office we have to be sure to get on the

1 minutes. So if I fire Cristal this afternoon, I
2 have to tell you this morning that I'm going to
3 do that so it's on the minutes.

4 MR. WARD: Is there a motion?

5 DR. ALVERSON: No, I don't have --

6 MR. WARD: Is that a motion?

7 DR. ALVERSON: No, it wasn't. I was
8 trying to be funny, Cristal.

9 MS. ANDERSON: I was sweating it.

10 MR. BRADEN: I was glad she said you
11 instead of me.

12 DR. ALVERSON: And she did say that
13 there is no -- and we should not get into gory
14 details on things but we just -- but we do have
15 to be sure that when we do something in the
16 office, if we make a major expenditure, if we
17 make a change in staff, bring somebody on, that
18 it needs to be in the minutes so they can follow
19 it and match it up with the financial records.
20 That was her point. I didn't mean to diminish
21 that at all.

22 So to that point, we are using a
23 pharmacy student this summer, Ann. She's not in

1 here.

2 MR. LAMBRUSCHI: She didn't show up
3 this morning.

4 DR. ALVERSON: Who is helping us get
5 caught up with scanning and filing and we're
6 hoping to use Donna's or talk to Donna's -- an
7 organization she mentioned that will convert
8 files to records farther on down the road. But
9 for right now, we're trying to get everything in
10 the computer and we have a fourth-year graduate
11 who hasn't taken his boards yet who is working
12 with us helping with writing things for the
13 website, helping us get caught up on some of the
14 office work and taking phone calls, all right.

15 We've purchased a new copy machine to
16 have on this floor, a new printer, and we are
17 going to purchase with your approval -- I don't
18 think I need a vote but just so you know, a
19 system called Dragon. I don't know if any of
20 you -- you're all nodding. Dragon is a system
21 whereby you can speak into your computer and
22 your computer types it as fast as you can talk
23 and so we're trying to look for ways that we can

1 be more efficient because we get so bogged down
2 in reports and paperwork as we all do these
3 days.

4 As you know, we were at ALSHP. We had
5 people at an FDA training yesterday. We are
6 going to or some of us are going to the APA
7 meeting upcoming this weekend and I wanted to
8 just mention that the Board is speaking. We
9 have an hour and a half, a 90-minute time frame.

10 I would like to begin with Eddie just
11 doing a very brief overview of what the office
12 does or his portion and I wanted to mention to
13 pharmacists something about calming down their
14 nerves about DEA coming into their pharmacies
15 and writing them up about not having addresses.
16 There seems to be a lot of nervousness in the
17 State right now, so we will have spoken with DEA
18 and report that out at the meeting. And I also
19 want to at least bring up some of the new track
20 and trace legislation, at least what we know,
21 all right.

22 There's an executive meeting of NABP
23 in October and I would like to attend that but

1 it looks like it may interfere with a board
2 meeting so I wanted y'all to be able to make a
3 decision about that.

4 We have settled on District III. As
5 you know, who is responsible for the NABP
6 District III meeting rotates every year. It
7 goes to different states who are part of
8 District III. 2016 is Alabama's year to host
9 District III. It is this meeting that all the
10 districts invite the schools of pharmacy in
11 their state and so we will be partnering with
12 the schools.

13 It's been the tradition in Alabama
14 that one year we partner with Auburn in terms of
15 doing the work and getting the agenda set and
16 the next time we partner with Samford to do the
17 same thing. This year it's Samford's turn, so
18 we have secured The Grand in Fairhope for that
19 meeting because we wanted to get something
20 before it was too late and there are people who
21 are assigned to do the work of District III and
22 they'll take over in terms of the money and
23 paying for it and all of that kind of thing but

1 we will at least nail -- have reserved it for
2 the second weekend of August of 2016 starting
3 Sunday afternoon and we have it through
4 Wednesday morning.

5 So I'd be -- we have a year but we
6 need to start talking about is there any topics
7 that you think we ought to have on that program.
8 We don't have to have that today but that is
9 coming up.

10 And for today we have 65 students to
11 be interviewed at the end of this meeting and 68
12 students this afternoon and we think that should
13 end our two-a-day interview sessions because we
14 did it last month and this month and we should
15 have gotten the majority finished and I know
16 students appreciate the fact that they can get a
17 job now in June and not have to wait until
18 August as happened in the past. So that's my
19 report.

20 Are there any questions?

21 DR. MARTIN: I saw you had something
22 in the Dropbox on provider status and scope of
23 practice. Is it too early to talk about that?

1 DR. ALVERSON: That's what happens
2 when I put things in Dropbox early.

3 DR. MARTIN: I can take it back.

4 DR. ALVERSON: Thank you. I will
5 check it.

6 DR. MARTIN: Why don't I check with
7 you later on?

8 DR. ALVERSON: I know there was a
9 reason for it.

10 DR. MARTIN: Well, obviously there's
11 an enormous initiative nationwide on provider
12 status and we have to be prepared to understand
13 what that means for us and to be able to be in a
14 position to respond.

15 DR. ALVERSON: Right. And there is
16 legislation, I'm not sure where it is in
17 Washington, to give provider status to
18 pharmacists and one of you may have followed
19 that more closely than I have.

20 DR. MARTIN: Not really. All I heard
21 was what Leah Island said at the meeting in
22 Pensacola.

23 DR. ALVERSON: And that's the last I

1 heard too but yes, we do have to be able to
2 allow pharmacists to do those things for which
3 they will be able to submit billing.

4 DR. ALVERSON: All right.

5 DR. MARTIN: Sorry to put you on the
6 spot.

7 DR. ALVERSON: Oh, no, no, that --
8 that's perfectly fine.

9 If I could, I'd like to make a comment
10 about Jim's and the legislation. I had spoken
11 to Logan Gray previously because when the new
12 guidances come out, we are going to have to
13 change what -- perhaps change what we have
14 listed for wholesalers, distributors, so on and
15 so forth. I know Jim will -- I mean, we could
16 probably have one section for licensing all of
17 those but we may have to have specifics on each
18 of the categories so -- and I had spoken to
19 Logan about using time this summer to meet with
20 the heads of the health committees in the House
21 and the Senate, just start that conversation as
22 early as possible to make sure we're ready to go
23 when they get it written.

1 DR. MARTIN: So you're -- are you
2 saying that we should take -- try to take
3 advantage of the possible opportunity to send
4 something through on the 3PLs for special
5 session or you're saying getting in a position
6 to do it next February?

7 DR. ALVERSON: I think we have to
8 consider do we want to go twice. I don't think
9 we can write all of those standards for all of
10 those categories done by special session.

11 MR. WARD: We don't need to put the
12 standards into law. We do it by rule.

13 MR. DARBY: We establish rules,
14 yeah.

15 MR. WARD: We just need the -- we just
16 need the category.

17 DR. MARTIN: Authorizing --

18 MR. WARD: To have a permit issued
19 just like we did with the -- with the
20 pharmacy --

21 DR. MARTIN: Special.

22 MR. WARD: -- special permits.

23 DR. ALVERSON: And we will have to

1 have the rules written then or whatever within a
2 year.

3 MR. WARD: Right. That's why I'd like
4 to, if possible, in a special session so we
5 don't get caught if we can. I'm not sure we can
6 do it in special session.

7 DR. ALVERSON: That's my report.

8 MR. DARBY: Susan, what's your feeling
9 on talking about the permit categories? Would
10 you be wanting to do a 503B separate category
11 or --

12 DR. ALVERSON: I would be.

13 MR. DARBY: Yeah.

14 DR. ALVERSON: It's becoming very
15 difficult for those businesses to function
16 because one state says you have to have a
17 pharmacy license. The next state says you can't
18 have a pharmacy license, you know. It's almost
19 as if you can't function in all the states.

20 MR. DARBY: My suggestion would be if
21 we're able to get the legislation in the special
22 session for the 3PLs, go ahead and do the 503B
23 as well.

1 DR. ALVERSON: My feeling is we have
2 to be sure we have control of any dispensing
3 that goes on.

4 MR. DARBY: Yeah.

5 DR. ALVERSON: You know, I -- I don't
6 think we want someone dispensing medications to
7 individuals without it coming under the auspices
8 of the Board of Pharmacy.

9 MR. WARD: I think if we just
10 described it really as flexible -- with as much
11 flexibility as we can so if it's ever changed --

12 MR. DARBY: Right.

13 MR. WARD: -- we don't have to go back
14 to the legislature.

15 MR. DARBY: I wouldn't specifically
16 call it 503B.

17 MR. WARD: Yeah, you might have a
18 manufacturer and then a -- maybe call it
19 something other than manufacturer, something so
20 it's broad enough to include whatever is going
21 to happen.

22 MR. DARBY: And then that would change
23 by the rule if you need to.

1 DR. MARTIN: Does that mean that the
2 average run-of-the-mill pharmacy permit for a
3 practice establishment has to be called 503A?

4 MR. WARD: No.

5 MR. DARBY: No. It can stay what it
6 is now, just reach up with it.

7 DR. MARTIN: Does that mean me a 503A?

8 MR. WARD: No.

9 DR. MARTIN: You don't.

10 DR. ALVERSON: Speaking of 503As, last
11 night I prepared a skeleton list of what they
12 must do, what they can make, what they can't
13 make for you that I'll pass out for you because
14 we always seem to decide can they, can't they.

15 MR. MCCONAGHY: Any more questions or
16 comments for Susan?

17 (No response.)

18 MR. MCCONAGHY: Okay. Let's move on
19 to Jim Ward, attorney's report.

20 MR. WARD: All in executive session
21 other than obviously if y'all -- those of you
22 that aren't doing compounding probably don't --
23 this won't affect you but there's -- there's

1 been a -- what's when an earthquake happens,
2 tectonic -- what's an earthquake --

3 DR. ALVERSON: Tectonic plates.

4 MR. WARD: Tectonic shift, everything
5 has been changed pretty much so we have to amend
6 the law and the federal government has, you
7 know, threatened saying if you don't do it,
8 they're going to preempt you, so those are magic
9 words in Alabama. I don't think we'll have a
10 hard time when we tell them the federal
11 government is going to take it over if we don't
12 get it done but they don't give you -- they have
13 these time tables in -- in the law to do things
14 and for example, the MOUs for the -- all the
15 states to enforce those who are compounding, the
16 first graph was panned pretty badly. We're
17 waiting for a second draft. Has that come out?

18 DR. ALVERSON: Yeah, we've had a
19 second draft that was at the March meeting.

20 MR. WARD: The FDA hasn't sent out a
21 second draft yet, have they?

22 DR. ALVERSON: They kind of gave us a
23 straw man at that meeting.

1 MR. WARD: Yeah, but they haven't
2 published it; right?

3 DR. ALVERSON: Yeah.

4 MR. WARD: So it's -- I think a lot of
5 you heard me say this before the Practice Act in
6 the past, when there was only hospital
7 pharmacies and retail pharmacies, it's archaic
8 in a lot of ways so we'd have to get it changed
9 in order to keep track, keep up with -- with all
10 these changes, and unfortunately, like it always
11 is, most everybody who's doing these new things
12 are doing them right but there are some who
13 aren't. So you need to have the tools to enable
14 to prevent those who are not doing right from
15 doing it.

16 And I want to brag on Susan and Eddie
17 and all the inspectors and I keep up with this
18 stuff pretty closely, not only here but across
19 the United States. I think as they say in
20 fighting, pound for pound, this Board does more
21 with what it has than any board in the country
22 and are leaders in this and getting calls from
23 other states to teach them and help them in

1 what -- what already this Board has been doing.
2 So I get -- as long as you aren't on the
3 receiving end of what they've been doing, I
4 guess that -- you should be proud of the Board.
5 You are on the receiving end of it, maybe not,
6 but.

7 DR. ALVERSON: And Cristal.

8 MR. WARD: And -- of course. I
9 thought you -- I thought you were going to fire
10 her. Of course, Cristal, yes. I mean,
11 everybody, the whole -- everybody here. It's
12 just not --

13 DR. ALVERSON: Thank you.

14 MR. MCCONAGHY: Is that all?

15 MR. WARD: Yes, sir.

16 MR. MCCONAGHY: All right. Do we have
17 any old business?

18 (No response.)

19 MR. MCCONAGHY: No old business.
20 We'll go to new business. Do we have any new
21 business items?

22 MR. BUNCH: Dan, I've got some new
23 business. There seems to be some confusion

1 or -- with some PBMs doing audits on which side
2 of the prescription is the face of the
3 prescription. Some of their audit procedures
4 require certain items on the, quote, unquote,
5 face of the prescription and their -- I think it
6 would be a good idea that the Board -- my
7 opinion on it is that either side of the
8 prescription could be the face of a prescription
9 depending -- I mean, it's -- depending on what's
10 written on it, if there's a sticker on one side
11 that it would be -- could be considered --
12 either side can be the face of the prescription.

13 So it sounds a little nitpicky but I
14 think there's some problems with some -- with
15 some audit companies that are taking advantage
16 of what they consider to be the face of the
17 prescription and I'd just like to get the Board
18 to make a -- either a ruling or a statement or
19 our opinion on a prescription, if either side
20 can be considered the face of the prescription.

21 Jim, what do you think?

22 MR. WARD: I think with legend drugs,
23 I don't have an issue with it but in light of

1 the DEA now I'm -- I would be very cautious
2 about saying it could be either. Hopefully
3 we'll get that cleared up at the DEA but they
4 are -- they are literally reading what their --
5 what their reg says at the time of issuance of
6 the script for a controlled drug, all of the
7 information has to be on it.

8 We all know that in the real world
9 that hardly ever happens and it's kind of silly
10 but they are threatening fines for those who are
11 not doing it, so we're to -- Susan mentioned
12 that. We're going to try to get with the DEA
13 and try to get them to back off on that a little
14 bit but as far as a legend prescription is
15 concerned, so as long as all the information is
16 on there, I don't see a problem.

17 MR. BUNCH: Well, there's got to --
18 there's two issues. One is that one. The other
19 one is just -- is just an audit company coming
20 in and saying we -- we need -- we need the
21 information on the face of the prescription and
22 anybody who has ever filled a prescription knows
23 that you have the information -- the directions,

1 the name of the drug, and all of that on one
2 side of the prescription and if you put your
3 sticker on it, which you have to do, you're
4 going to cover up some of that, so you flip it
5 over and you put it on the other side and
6 that's -- it's not -- the DEA thing is a little
7 bit different. This is -- this is just I think
8 some auditors that are -- that are trying to --

9 MR. MCCONAGHY: I think personally
10 the prescription itself, the whole prescription,
11 should be considered the face, not one side or
12 the other.

13 MR. WARD: That's --

14 MR. MCCONAGHY: There's so many
15 prescriptions you have a lot more information to
16 have on them and there's -- some of them you
17 have six or eight prescriptions on one side of
18 it and there's no way to get everything on one
19 side of it.

20 DR. MARTIN: Right.

21 MR. MCCONAGHY: Personally I think the
22 whole prescription, the document itself, should
23 be considered the face.

1 MR. BUNCH: Do we need -- do we need
2 to do like a --

3 MR. WARD: What I have said -- what I
4 have said in the past when these third-party
5 folks have contacted me, I have said as long as
6 the piece of paper has all the information
7 that's required, it's fine.

8 MR. BUNCH: Okay.

9 MR. WARD: Whether it's on the corner,
10 in the middle, on the back, as long as the
11 prescription has everything on it that has to be
12 on it, it's fine.

13 MR. BUNCH: Okay.

14 MR. MCCONAGHY: Sometimes you even
15 have attachments though with extensive type
16 directions that you have to add to them or the
17 doctors put specific things. You might even
18 have an attachment to the actual piece of paper
19 that you've got with everything on it, so I
20 don't -- I don't understand why it should be an
21 issue that that -- that that document and the
22 things attached it are just -- are the
23 prescription, the face or whatever you want to

1 call it.

2 MR. BUNCH: Yeah, it shouldn't be. We
3 shouldn't have to be talking about it, the --
4 what I'd like -- go ahead, Susan.

5 DR. ALVERSON: The DEA on control
6 medications actually dictates that on refills
7 and information like that, you must write it on
8 the back. That's in 1306. I'm just trying to
9 impress Jim that I know a number too.

10 MR. WARD: What number was that?

11 MS. ANDERSON: It's 21-1306.

12 DR. MARTIN: CFR?

13 DR. ALVERSON: Title 21, 1306.

14 MR. BUNCH: They have updated since
15 we've got computers now that you pull a
16 prescription and you write a refill on the
17 back.

18 DR. ALVERSON: It says you must enter
19 data on the back and so -- it doesn't say you
20 could. It says you must.

21 MR. BUNCH: There will be a lot of
22 folks breaking DEA, I would think.

23 MR. MCCONAGHY: I think that was

1 probably written back when we were still
2 stamping numbers and documenting when you get a
3 refill, you had to date it and initial it on the
4 back but the other information too should be on
5 there.

6 DR. ALVERSON: At least the point is
7 they recognized the back of the prescription.

8 MR. DARBY: It is on the back.

9 MS. YEATMAN: Well, I think from
10 Buddy's standpoint, what you're asking for is to
11 have -- to go on the record to say particularly
12 from an audit standpoint but understanding that
13 we consider the face of the prescription to be
14 the front and the back and any attachments that
15 may be for, you know, dosing schedule, that sort
16 of thing, and then from a DEA standpoint, it
17 needs to be known that the Board is addressing
18 that with having more conversation with the DEA
19 and the Board of Medical Examiners because I
20 think that's the direction we should go in as
21 far as if they're going to say that it's
22 required at the date of issuance that the
23 patient's address is on there, that's a

1 prescriptioning issue, not a filling issue and
2 we need to reach out and hopefully work together
3 with the Board of Medical Examiners and the DEA
4 to all be on the same page.

5 MR. WARD: But just to say -- it's so
6 silly. Just to say that someone comes in who's
7 been patient of the pharmacy, they know the
8 patient, they know the doctor, because an
9 address is not on there you can't fill that
10 prescription, you're going to be the subject of
11 liability just -- just think how silly that
12 is.

13 MR. BUNCH: Yeah, it is.

14 MS. YEATMAN: I agree.

15 DR. MARTIN: Mr. Bunch, do you want to
16 suggest that it be the position of this Board
17 that as it relates to audits, however you want
18 to state that, that it would be the Board's
19 position that whoever decides the prescription
20 would be who does it.

21 MR. MCCONAGHY: Susan has got a
22 comment.

23 DR. ALVERSON: I think it would be

1 great if we could do that now but I would almost
2 suggest we make a ruling because when we talk to
3 auditors, it's like, well, where does it say it
4 in the law? Well, it's our position. Well, if
5 it doesn't say it in the law, I'm not doing it.
6 So I'm just throwing that out there as a
7 consideration.

8 DR. MARTIN: Write it as a rule.

9 MR. BUNCH: It could be a rule.

10 DR. ALVERSON: That would be up to
11 Jim.

12 MR. WARD: It's not in the law, huh.

13 MR. MCCONAGHY: I think we can
14 officially adopt it that it's the Board's
15 opinion --

16 DR. ALVERSON: Right.

17 MR. MCCONAGHY: -- as of today's date
18 is that the face of the prescription is the
19 front, back, and any attachments.

20 DR. ALVERSON: Why don't we send an
21 official on Board stationery letter to every
22 pharmacy?

23 MR. DARBY: So they'll have it?

1 DR. ALVERSON: So if an auditor comes
2 in, they can say here's the piece of paper.

3 DR. MARTIN: And if that doesn't work
4 we'll take a --

5 DR. ALVERSON: Pardon me?

6 DR. MARTIN: And if that doesn't work,
7 we'll take a stronger position.

8 MR. BUNCH: I think that would -- I
9 think that would -- I think that would probably
10 take care of the problem.

11 MR. DARBY: Instead of sending it to
12 every pharmacist, can't you just put it on the
13 website and they can print it out because if you
14 send -- I tell you, if you send it to the
15 pharmacy, they're not going to be able to find
16 it when they need it but if you put it on the
17 website, they can download it.

18 DR. ALVERSON: The problem I see is a
19 lot of pharmacies, especially in chains, don't
20 have access to the website.

21 MR. BUNCH: Why don't we do both.

22 DR. ALVERSON: All right.

23 MR. DARBY: All right.

1 MR. BUNCH: That would be great. I
2 appreciate -- appreciate the time on that.
3 That's all.

4 MR. DARBY: Do we need to make a
5 motion so you can do that or can we just do it?

6 DR. MARTIN: I'd do it in the form of
7 a motion.

8 MR. MCCONAGHY: Yeah.

9 MR. DARBY: I would make a motion that
10 it's the position of the State Board of Pharmacy
11 that the face of a prescription is considered to
12 be the front, the back, and any attachments to
13 the prescription.

14 MS. YEATMAN: Second.

15 MR. MCCONAGHY: All in favor?

16 DR. MARTIN: Aye.

17 MR. DARBY: Aye.

18 MR. BUNCH: Aye.

19 MS. YEATMAN: Aye.

20 MR. BUNCH: Thank y'all. That's all I
21 have on new business.

22 MR. MCCONAGHY: That was a long
23 discussion.

1 MR. DARBY: I have a item on new
2 business concerning what Logan presented joining
3 the AARB. I would make a motion that we
4 would -- that the Alabama State Board of
5 Pharmacy would join the Alabama Association of
6 Regulatory Boards.

7 DR. MARTIN: Second.

8 MR. MCCONAGHY: Any discussion?

9 (No response.)

10 MR. MCCONAGHY: All in favor?

11 DR. MARTIN: Aye.

12 MR. BUNCH: Aye.

13 MS. YEATMAN: Aye.

14 MR. MCCONAGHY: All opposed?

15 (No response.)

16 MR. MCCONAGHY: Any other new
17 business?

18 MS. YEATMAN: Yeah, Dan, I have one
19 thing to bring up, Mr. President. I have one
20 thing to bring up and I guess -- and I'm new, so
21 I may not do this properly but what I wanted to
22 bring up is an issue that I've seen. I think
23 we've all seen it since I came on the Board in

1 January and it has to do with technicians,
2 specifically those enrolled in the community
3 colleges and different technical schools that
4 finish the program in debt, \$30,000, \$40,000
5 come before the Board and due to their criminal
6 background, we can't or won't give them a tech
7 registration. So I'd like to propose that we
8 discuss this maybe at the next meeting and give
9 everyone an opportunity to give their opinion
10 but I'd like to require a background screening
11 for technicians prior to registration and that
12 way that would keep them from enrolling in these
13 schools and potentially ending up in a position
14 where they're in debt and we don't feel that
15 it's feasible or responsible to give them a tech
16 registration.

17 MR. DARBY: Well, and also
18 requiring that prior to -- anyone that's
19 enrolling in a school of pharmacy or a
20 technician training program, that they have to
21 be registered with the Board as either a
22 technician or an intern/extern.

23 MS. YEATMAN: Absolutely. Jim, is

1 that something that we -- do we need a law to
2 change that or is that -- do we need to have
3 that written up for a comment period or how does
4 that work?

5 MR. WARD: Well, we probably might
6 have to change the -- one way to look at it is
7 for the students who would -- who have the
8 authority, and I'd add that to as to the techs,
9 you want to do it when they started school. So
10 one way to handle it maybe would have the law
11 changed to make any college or any institution
12 that's offering a pharmacy technician course to
13 register with the Board. Maybe we could handle
14 that that way or I don't know how else you get
15 notice out to everybody who wants to be a tech.
16 So that's one way of doing it. I can tell you
17 that was probably the best -- the best way to do
18 that. That would require a law change.

19 MS. YEATMAN: A law change.

20 MR. BUNCH: I think it would be the
21 route to go.

22 MR. WARD: What's happening, y'all, is
23 that these -- there's a lot of -- the Fortis and

1 Virginia College, there's all these federal
2 moneys around. They get a scholarship. They
3 get a loan from the federal government. They
4 become in debt 25,000, 30,000. They apply for
5 their pharmacy technician registration and they
6 have a criminal background, maybe a felony or
7 something, something that is serious, and
8 they're never told that at the school. Don't
9 worry, and the school gets the money. So what
10 happens is here's this person. The school has
11 gotten their money. The person has to pay it
12 back and they can't become a tech. It's been an
13 issue for a couple of years and we've thought of
14 every way around it and that's a good idea and
15 maybe that's one way of doing it. So that
16 should be on the agenda for next time to be
17 discussed fully and I will research -- I think
18 it's going to have to get the law changed.

19 MS. YEATMAN: Thank you. That's all I
20 have, Mr. President.

21 DR. MARTIN: Mr. President, I don't
22 have any items for new business.

23 MR. DARBY: Thank you.

1 DR. MARTIN: Everybody had
2 something.

3 MR. MCCONAGHY: We never had that much
4 new business.

5 MR. MCCONAGHY: I have one other item.
6 Susan, when you were talking about the auditor,
7 I'm not sure -- I didn't know where to go with
8 this but we had gotten a letter from the State
9 auditor, Jim Zeigler, and -- about our property
10 management and I don't know where we need go to
11 handle that but in accordance with the code Of
12 Alabama, the State auditor's office conducted a
13 property audit of your agency, nonconsumable
14 personal property on April 23. All items valued
15 at \$500 or more were audited. Your agency has
16 reported 205 items at an acquisition cost of
17 \$527,932.73.

18 What we got is the issue is they sent
19 a recognition to Terry Lawrence that says, "In
20 recognition of achieving a perfect property
21 inventory audit, you are hereby commended," so
22 Terry, I'd ask you to come up and get this.
23 When the State says you're perfect, I mean,

1 perfect.

2 MS. YEATMAN: I wish y'all could have
3 seen his face. He was so nervous.

4 MR. MCCONAGHY: He had perfect --

5 MS. YEATMAN: That was a great deal of
6 relief after that.

7 MR. BUNCH: Yeah, that's a great
8 job.

9 MR. DARBY: Good job.

10 MR. BUNCH: I can't find my socks.

11 MR. DARBY: I don't have socks. What
12 are you talking about?

13 MR. MCCONAGHY: Any other new
14 business?

15 MR. MCENIRY: Dan, I'm not sure if
16 it's appropriate now or in the comment phase but
17 I have some new business that may need to be
18 taken up by the Board.

19 MR. MCCONAGHY: Yeah, I welcome your
20 comment.

21 MR. MCENIRY: Thank you. Thank you.
22 Good morning, Mr. President and members of the
23 Board. My name is Jay McEniry. I am the

1 executive director of patients and physicians
2 for RX Access. It's an nonprofit coalition
3 focused on patient access issues and compounded
4 medications.

5 An issue that I'd like to bring to the
6 Board's attention that may require Board action,
7 approximately two-and-a-half weeks ago, Blue
8 Cross Blue Shield of Alabama released notice to
9 providers that it was revising compounding
10 coverage -- or coverage for compounding
11 medications for its members and since that time,
12 member letters have been released. As -- if you
13 have not seen the notice, the change effectively
14 ends coverage for compounded medications in
15 Alabama. As we all know, Blue Cross Blue Shield
16 of Alabama insures a majority of the insured
17 lives in the State. I've seen numbers as high
18 as 90 or above 90 percent. The elimination of
19 coverage in my opinion limits access to Alabama
20 residents. This transcends a simple issue of
21 contract. This represents, or at least
22 implicates, potential threat to the public
23 health for which I believe this Board has

1 jurisdiction.

2 For that reason, I don't know exactly
3 what to ask. Blue Cross Blue Shield has not
4 been given notice. I believe there are some
5 concerns with that, especially when you're
6 seeking formal court action as to due process.
7 I'd request that this issue be placed on the
8 July agenda if you see fit, Mr. President, and
9 members of the Board for other relief as
10 necessary that we give Blue Cross, of course, a
11 chance to respond and we could put together a
12 more formal presentation on behalf of
13 pharmacists and patients in Alabama.

14 MR. MCCONAGHY: Any questions for Jay?

15 MS. YEATMAN: I don't -- I don't have
16 any questions. I will make a comment that I
17 think it should be brought up and I do think it
18 is a concern in the public health interests that
19 the individuals that are making determinations
20 as to what will be covered should be physicians
21 and those that are actively involved in taking
22 care of the patient. So I would agree that it
23 should be on the agenda.

1 MR. MCCONAGHY: Any other comments?

2 (No response.)

3 MR. BUNCH: I've got a question. The
4 employee or the company who's doing business
5 with Blue Cross, could they -- if their
6 employees go to -- to their employers and inform
7 them that they're not able to get their
8 prescription filled for a compounding cream or
9 whatever, could -- could the -- could that not
10 put pressure on Blue Cross to cover that? I
11 mean, if -- they're Blue Cross's customers so if
12 their customers are not happy, then that's not
13 good. You want your customers happy so have you
14 looked at that, do you know?

15 MR. MCENIRY: There was no prior
16 notice given to employers or members other than
17 the fact that in 30 days or in some member cases
18 in less than 30 days your medication will no
19 longer be covered. That is certainly an issue.
20 I think actually there are some -- there are
21 many employer plans that are grandfathered under
22 the Affordable Care Act when a substantial
23 change in benefits occurs, the grandfather

1 provision no longer applies to that plan, thus
2 subjecting that plan to a whole lot of new rules
3 and other issues. That issue was not discussed,
4 at least publicly by Blue Cross. I think there
5 are a lot of issues as it deals with members.

6 MR. DARBY: I have a question for Jim.
7 I'm not sure if you would know the answer but
8 would the ERISA laws affect any of this?

9 MR. WARD: Yes.

10 MR. DARBY: Okay.

11 MR. WARD: It may. I mean, it would
12 be -- it would be -- that's what happens in
13 these cases is any time any kind of action under
14 state law is preemptive.

15 MR. DARBY: Right.

16 MR. WARD: I don't know what the
17 contract says, Jay. I don't know if they have
18 the right under their contract to do what they
19 did. My experience has been they get -- they
20 get to do what they want and you try to go to
21 the legislature -- the Board a few years ago
22 wanted to make start -- make PDMs have a license
23 because we got -- we get all kinds of complaints

1 for some of these same issues and you know who
2 was against it, don't you?

3 MR. MCENIRY: Absolutely.

4 MR. WARD: Yeah, so I don't know. If
5 it -- if it's an ERISA-qualified plan, then they
6 would have to follow federal or whatever the
7 federal requirements are.

8 Roger, do you know what those are? I
9 don't even know what they are. I'm not -- don't
10 know much about ERISA and I don't want know much
11 about it.

12 MR. BATES: I think the real issue
13 that I heard in that is the notice, particularly
14 on a contract period notification date, and
15 depending on whether or not those medications
16 are deemed medically necessary by the physician.
17 It sounds like just across the Board the
18 plaintiff -- I mean, I've not seen any letters
19 but it sounds like they just cut it off, that
20 they're --

21 MR. WARD: I mean, here's what I don't
22 understand.

23 MR. BATES: The courthouse is going to

1 be real busy I would suggest, yeah.

2 MR. WARD: Yeah, I mean, just for
3 example, my son can't swallow a pill.

4 MR. BATES: Yeah.

5 MR. WARD: So what's he supposed to do
6 now that Blue Cross won't cover it? He's a Blue
7 Cross -- has Blue Cross. He's a compounding --
8 he's a compounder. What's he going to do?

9 MR. BATES: But they're going to be
10 denying claims for the pharmacy because of this.
11 They're going to refuse the pharmacy claims so
12 they're not going to pay you.

13 MR. MCENIRY: This is exactly why I
14 believe this is a public health concern for
15 which the Board, at least, has jurisdiction.
16 Now, what can be done is something that I think
17 requires some more analysis. Your exact
18 situation is a situation that I have seen. I've
19 been with the nonprofit organization for a year
20 now. It's an issue that I've seen more times
21 than I can count or could display to you at any
22 simple meeting but it does -- when you're
23 talking about compounding medications, this

1 isn't a situation we chose hep-c treatment over
2 another. This is a situation where the
3 medication is necessary and is found necessary
4 by the prescriber because there are no
5 commercially available alternatives. There are
6 no other alternatives for these patients and
7 that's why it's important.

8 MR. WARD: Are they doing -- is this
9 just Blue Cross of Alabama or are all the Blues
10 across the country doing this?

11 MR. MCENIRY: Not all of Blues.

12 MR. WARD: Not all of them.

13 MR. MCENIRY: Yeah, not all of them.

14 MR. WARD: Has anybody called the
15 governor or contacted the government?

16 MR. MCENIRY: We're working on a
17 multi-faceted plan on that issue. We've only
18 been active on the issue for about two weeks and
19 so with the limited notice provided by Blue
20 Cross, we're doing a lot of things in a hurry
21 but I wanted to bring this to the Board's
22 attention because it is important.

23 MR. DARBY: Jay, would you be able to

1 maybe provide some advance reading materials for
2 us?

3 MR. MCENIRY: Absolutely.

4 MR. DARBY: So we would have a little
5 background on it before we come into the meeting
6 in July --

7 MR. MCENIRY: Yes, sir.

8 MR. DARBY: -- and have Susan put it
9 on the agenda for July.

10 MR. MCENIRY: Yes, yes, absolutely.
11 Thank you for your time.

12 MR. MCCONAGHY: I think we all
13 recognize that the compounding has been a real
14 issue in quality and quantity and ethics and
15 it's been on the hot plate and the PBM folks
16 have reacted in a very drastic manner that does
17 have some effects, I think, in that way but I'm
18 sure if it -- if there was to be some kind of
19 movement, it would have to kind of be on both
20 sides with the maximum allowables and that kind
21 of stuff I would think because it -- the abuse
22 that occurred has -- has kind of caused a
23 problem across the board on some of the national

1 groups, you know.

2 MR. MCENIRY: Absolutely and you know,
3 it is like most areas of health care, you know,
4 you have two percent of the organization giving
5 the other 98 percent a bad name. I think
6 that -- and given the increased activity related
7 to the Drug Quality and Security Act and
8 ultimately the fallout from NECC, which is now a
9 few years ago, I believe the Board staff and
10 Susan have done a remarkable job of inspecting
11 pharmacies, ultimately guaranteeing safety for
12 pharmacies dispensing compounded medications in
13 the State.

14 And so while we do have an issue of --
15 we have had an issue with a certain couple of
16 pharmacies really giving the others a bad name,
17 ultimately actually we have seen a lot of PBM
18 and planned piling on to take advantage of that
19 to save a buck and who is caught in the
20 crossfire, who ultimately gets hurt are the
21 patients and the public and that's where I
22 believe we -- as a board can assist. Thank you.

23 MR. BUNCH: I don't -- I don't do

1 compounding but I don't -- I'm not real -- they
2 certainly -- PBMs certainly control what they
3 pay me and what they reimburse me and I'm not
4 sure why -- I think what a lot of this comes
5 from is a lot of the creams that are compounded
6 that have been -- pharmacies have been charging
7 maybe more than what would be reasonable and I
8 think that's what brought some of it about. It
9 may not be all of it but is there not a way that
10 Blue Cross can cap what they've paid for and I
11 mean they cap it on mine every time I transmit a
12 claim and not take such a drastic measure?

13 MR. MCENIRY: Absolutely, and through
14 Prime Therapeutics, compounding medications have
15 been masked or capped for a number of years at
16 \$500 a pill with other rules, of course, keeping
17 pharmacies from doing other -- taking other
18 actions to -- to bill more than one fill within
19 a -- within a month of your prescription period.
20 So there has been a cap in effect but the answer
21 is yes, most likely but we haven't heard any
22 solutions from Blue Cross other than we're just
23 going to take it away.

1 So I have reached out on behalf of my
2 organization and on behalf of Alabama pharmacies
3 and pharmacists who support my organization and
4 are assisting me to attempt to work that out
5 with Blue Cross and I hope that I can come here
6 next month and I can say, hey, we've figured out
7 a solution but given the limited time period in
8 which we have to work, I think it's important to
9 go ahead and get it on the agenda.

10 MR. BUNCH: Very good. Thank you.

11 MR. MCENIRY: Thank you.

12 MR. MCCONAGHY: I gather we will
13 definitely take that under consideration and go
14 ahead and put it on the agenda for next month
15 and I didn't ask that if you can come up with --
16 I know the pediatric patient population would be
17 the ideal one to look at for where compounding
18 needs to be available and that would be a good
19 one to focus on for the public health issue.

20 MS. YEATMAN: Dan, I'd also mention, I
21 mean, it goes beyond pediatric. You also have
22 those that are physically disabled or have
23 different needs --

1 MR. DARBY: Special needs.

2 MS. YEATMAN: -- special needs
3 individuals that you're going to go from, you
4 know, birth to adult that are going to need
5 different formulations in order to take care of
6 their -- and those -- particularly special needs
7 patients have a plethora of issues you're trying
8 to deal with, so they have more medications that
9 are going to be on their profile.

10 MR. MCENIRY: And not to belabor this,
11 because I know that we need to get out of here
12 and you guys have other obligations today, but I
13 noticed when Jim was speaking to the risks of
14 pharmacies with other state boards and other
15 issues, you know, very recently there was at
16 least a state, if not two states, that are now
17 allowing private causes of actions against
18 pharmacists and pharmacies regarding the
19 dispensing of opioids to patients who may have
20 an addiction issue or an adverse health issue.

21 You take compounding away and you
22 leave pharmacists really between a rock and a
23 hard place, especially if certain Alabama

1 lawyers wanted to attempt to adopt those types
2 of approaches for Alabama pharmacists because
3 really you only have two options when dealing
4 with pain and that is a pain pill or some
5 alternate mode of administration.

6 I think this really is an issue
7 that -- that deals with a wide swath -- a really
8 large section of our population and puts a lot
9 of people at risk, not just patients,
10 potentially pharmacies as well.

11 MR. MCCONAGHY: Jim has expressed a
12 need that we're going to need to go into
13 executive session, so can I get a motion for
14 that and then we'll --

15 MR. DARBY: Just read the motion.

16 MR. MCCONAGHY: The Board will now go
17 into executive session for the purpose OF
18 discussing qualifications and competencies of
19 professionals, permit holders, or registrants.
20 Other legal matters may be discussed, including
21 existing and pending cases. The executive
22 session will start at approximately 10:50 and
23 ideally we'll be out of there by 11:15. At that

1 time, the public business session will resume
2 but no further business will be conducted except
3 the matters that were discussed in the executive
4 session. You're welcome to come back. Thank
5 you for coming.

6 MR. DARBY: Second.

7 MR. MCCONAGHY: This is an individual
8 vote.

9 MR. WARD: And I need to say as a
10 lawyer licensed to practice law in the State of
11 Alabama, I certify that one of the purposes for
12 the special -- for the executive session is to
13 discuss pending cases and settlement of those.

14 MR. MCCONAGHY: Buddy, how do you vote
15 on the motion?

16 MR. BUNCH: I vote aye.

17 MR. MCCONAGHY: Donna?

18 MS. YEATMAN: Aye.

19 MR. MCCONAGHY: Tim?

20 DR. MARTIN: Aye.

21 MR. MCCONAGHY: David?

22 MR. DARBY: Aye.

23 MR. MCCONAGHY: Aye. We'll now go

1 into recess for about ten minutes and then
2 executive session.

3
4 (Whereupon, a brief recess was taken
5 from 10:40 a.m. to 12:28 p.m.)

6
7 MR. MCCONAGHY: We are now out of the
8 executive session. David is going to read the
9 cases that were discussed.

10 MR. DARBY: On case number 15-0016,
11 case number 15-0034, I make a motion we accept
12 the recommended action of a letter of concern.

13 DR. MARTIN: Second.

14 MR. MCCONAGHY: All in favor?

15 DR. MARTIN: Aye.

16 MR. DARBY: Aye.

17 MS. YEATMAN: Aye.

18 MR. BUNCH: Aye.

19 MR. DARBY: On case number 15-0053, I
20 make a motion we accept a recommended action of
21 a permanent surrender.

22 MS. YEATMAN: Second.

23 MR. MCCONAGHY: All in favor?

1 DR. MARTIN: Aye.

2 MS. YEATMAN: Aye.

3 MR. DARBY: Aye.

4 MR. BUNCH: Aye.

5 MR. DARBY: On case numbers 15-0021,
6 case number 15-0068, and case number 15-0069, I
7 make a motion we accept the recommended action
8 of no violation.

9 DR. MARTIN: Second.

10 MR. MCCONAGHY: All in favor?

11 DR. MARTIN: Aye.

12 MR. DARBY: Aye.

13 MS. YEATMAN: Aye.

14 MR. BUNCH: Aye.

15 MR. MCCONAGHY: Aye.

16 MR. DARBY: Case number 15-0052, I
17 make a motion we accept the recommended action
18 of sending it to Jim Ward to determine if
19 further charges need to be filed.

20 DR. MARTIN: Second.

21 MR. MCCONAGHY: All in favor?

22 DR. MARTIN: Aye.

23 MR. DARBY: Aye.

1 MS. YEATMAN: Aye.

2 MR. MCCONAGHY: Aye.

3 MR. BUNCH: Aye.

4 MR. DARBY: Now, case numbers 15-0060
5 and 15-0061 and 15-0070, I make a motion we
6 accept the recommended action of an action
7 plan.

8 DR. MARTIN: Second.

9 MS. YEATMAN: Second.

10 MR. MCCONAGHY: All in favor?

11 DR. MARTIN: Aye.

12 MR. DARBY: Aye.

13 MS. YEATMAN: Aye.

14 MR. BUNCH: Aye.

15 MR. MCCONAGHY: That will conclude the
16 meeting and we now a motion now to adjourn.

17 DR. MARTIN: Move to adjourn.

18 MS. YEATMAN: Second.

19 DR. MARTIN: We have a motion and a
20 second to adjourn.

21 MR. MCCONAGHY: Yeah, we're adjourned.

22 (Whereupon, the hearing was adjourned
23 at 12:30 p.m.)
