Policy 17-003

If a maintenance medication is written by a physician and it's given a 30- day supply with an appropriate number of refills through a year that the pharmacist can fill that prescription as a 90-day supply with the commiserate number of refills without contacting the physician to obtain a new prescription. This will aid the public health in being able to give the patient a 90-day supply at a time and improving compliance.

Policy accepted by the Board of Pharmacy during the Business Meeting 3/15/2017. This final draft was approved by all Board members.
